

AVITA

moments

WINTER 26/27

Dear guests,

As the days grow shorter, warmth, calm and time take on a very special value. With this first issue of AVITA moments, we would like to accompany you through some of the small moments that make a stay with us so special.
We hope you enjoy reading it and take many of your own AVITA moments home with you.

A warm welcome!

PETER PRISCHING
Managing Director, AVITA Resort

Everything my heart desires.

FAVOURITE MOMENTS AT
THE AVITA THERME.

Arrive
at your new
favourite place.

HOSPITALITY YOU CAN FEEL.

TASTE SOUTHERN BURGENLAND BY BIKE

In this Issue

...things are allowed to slow down a little. When the days outside grow shorter and the evenings longer, warmth, calm and time take on a character of their own. The colder season invites us to take our time, let our gaze wander and notice the little things more consciously again. A relaxed morning, a good meal, a warm place to lean back or a walk through an autumnal or wintry landscape can mean just as much as a whole day full of experiences.

Arrive, Immerse, Let Go and Discover guide you through the four moods of a stay in this issue. They tell of heartfelt encounters, soothing warmth, indulgent hours and the joy of discovering something new in between. Sometimes quiet, sometimes full of life, sometimes with time for yourself and sometimes together with others. In between are many little moments that do not need to be planned and are remembered precisely because of that. Moments that slow things down a little and turn a break into more than just time away from everyday life. Always with the feeling that sometimes nothing more is needed than this one AVITA moment.

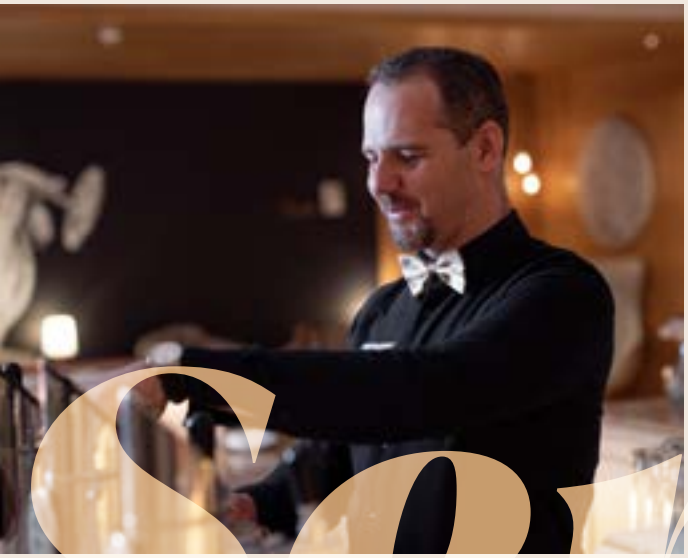

Arrive	WHERE HOSPITALITY CAN BE FELT FROM THE VERY START.	Page 6
Immerse	WHERE WATER, LIGHT AND OPENNESS COME TOGETHER.	Page 12
Let go	WHERE CALM, WARMTH AND TIME FOR YOURSELF EMERGE.	Page 18
Discover	WHERE PLEASURE, NATURE AND NEW IMPRESSIONS AWAIT.	Page 24

Arrive
The first
moment matters.
FROM HERE ON, EVERYDAY
LIFE GROWS QUIETER.

Behind every stay are people who turn a visit into something personal with warmth and attentiveness.

Hospitality, Sera

A NAME WITH A FEEL FOR THE REGION.

Sera means “evening” in Italian and at the same time echoes the character of precious serpentine stone, which has a special regional significance in Southern Burgenland. The name suits a place that brings different moments together – a first little break in the morning, an aperitif in the afternoon and the relaxed end to a wellness day. Even more important than materials, colours or names, however, are the people who bring this place to life. The warmth of Southern Burgenland that our team embodies is just as much a part of the AVITA experience as the calm atmosphere and the feeling of being personally welcomed.

When you feel welcome.

ARRIVE WITH A
GOOD FEELING.

ARRIVE AND STAY A WHILE.

The first coffee, a small snack or simply a moment to breathe – sometimes it takes very little to feel that you have arrived. Around reception, these little in-between moments unfold before you continue on to your room or the thermal spa. Warm materials, soft lighting and comfortable seating create an atmosphere that makes you want to stay a little longer. The Sera Bar is not just a place for hotel guests either. Visitors from the region can stop by for an aperitif or an after-work drink. In this way, a place where you arrive quite naturally becomes a place where you stay.

you can feel.

YOUR HOLIDAY CAN START EARLIER.

When you arrive at AVITA, you do not have to wait until your room is ready before your break can begin. From 9:00 a.m. on the day of arrival, complimentary access to the thermal spa, including Sauna Garten Eden and Lady's Spa, is already included, while rooms are available from 2:00 p.m. Your spa bag with bathrobe and towels will also be waiting for you at reception. This leaves plenty of time to put down your bag, slip into the warm water and ease gently into your wellness day. Arrival is no longer about waiting for the holiday to start – it already becomes part of it.

A PLACE THAT STAYS WITH YOU THROUGHOUT YOUR STAY.

In the evening, the mood changes. The light grows warmer, conversations last longer and the first coffee of the morning may turn into a glass of wine or a cocktail. It is then, in particular, that you notice what makes a good host: not only beautiful surroundings, but the feeling that you are genuinely welcome. A familiar place, a personal word or a recommendation for the evening make a stay feel more personal. This means the lobby is not only the first place you encounter on arrival, but a place that accompanies you right through to the last drink – perhaps even until your next visit.

A PLACE FOR SPECIAL MOMENTS.

If you are from the region, you do not have to come to AVITA for a spa visit to enjoy the lobby. It is just as inviting for meeting after work, having a drink with friends or spending a relaxed evening. Between generous lounge areas and the new bar, a meeting place has been created where you can get together, raise a glass and let the day come to an easy close.

PLEASURE DOWN TO THE LAST DETAIL.

Whether it is a glass of wine, regional specialities or selected spirits, small moments of indulgence are part of the stay too. The snack menu adds little treats for in between and, together with the comfortable seating areas, invites you to take your time. Whether for a small indulgent break or a relaxed end to the day, it is often these little things that make a stay special.

ENJOY FIRST. THEN IMMERSE.

A small snack, a refreshing drink and a few more quiet minutes before moving on. The lobby naturally combines indulgence and relaxation, making the transition into your wellness day wonderfully easy. Afterwards, warm thermal water awaits – and with it exactly the calm you came to AVITA for.

Linger. A favourite place to return to.

A GLIMPSE INTO A SPECIAL CORNER OF THE RESORT.

Some places quite naturally become part of the stay. A comfortable armchair, an afternoon drink or a quiet moment between two activities. The lobby brings together enjoyment, encounters and relaxed lingering, inviting you to discover a new favourite spot again and again. And if you would like to move on, there are also special places around the thermal spa for shared moments of relaxation.

Immerse.
Where calm
begins to flow.
WARMTH, WATER AND
TIME FOR YOURSELF.

Every view opens up a new perspective and invites you to experience the moment consciously.

With generous water areas and flowing transitions between indoors and outdoors, AVITA Therme continually opens up new perspectives. Sometimes the view stretches far across the water, sometimes the surroundings become wonderfully still. In between, small retreats invite you to sit, lie down or simply float. In this way, the water world can be rediscovered again and again.

Lightness.

Not every day at the thermal spa needs a fixed rhythm. A few lengths in the water, a place on a lounger or a moment to lean back can sometimes be all you need. The various pools and relaxation areas can be combined quite naturally, depending on what you feel like at the time. That freedom is what makes a stay feel so easy: nothing is compulsory, many things are possible, and in between there is plenty of time simply to be.

Right by the water, there are also places that make the day especially pleasant. On the Deluxe Deck, the lounges are positioned along the front gallery with views over the water below. The service provided by the AVITA Pool Crew adds another level of comfort. Those who prefer more privacy will find a secluded retreat in the Day Spa Lounges, with plenty of peace and space to relax.

The thermal water reveals a different side of itself at every time of day. Sometimes mirror-smooth and still, sometimes streaked with sunlight or wrapped in fine steam.

Immerse
& enjoy.
WITH SERVICE
DIRECTLY AT YOUR LOUNGE.

Between water and calm, an atmosphere emerges that feels different at every time of day. In the morning, everything is quiet and clear; later, the light rests on the water's surface, and on cooler days fine steam drifts through the indoor and outdoor areas. Little breaks can be woven into the day with ease. And if you feel like a drink in between, you do not have to go far: the pool bar is simply part of the water world.

That is precisely where the lightness of a day at the thermal spa lies: there is no right schedule and nothing you absolutely have to achieve. You can stay when it feels good, move on when you feel like it, or simply settle somewhere and let the moment work its magic. From many small possibilities comes a stay that feels a little different every time.

Between sky & water.

FAVOURITE MOMENTS AT AVITA THERME.

Early in the morning, a special calm settles over the thermal spa. The light still falls softly through the large windows, drawing bright reflections on the water and slowly illuminating the rooms. Anyone entering the water at this time experiences AVITA from an especially quiet side. For hotel guests, access to the thermal spa begins as early as 7:00 a.m. – plenty of time for a few lengths, warm water and a start to the day that does not feel governed by a schedule.

When the thermal spa slowly awakens and the water is still completely calm.

With the first light, the atmosphere around the pools begins to change. Reflections move across the surface, bright areas start to glow and outside the cool morning air slowly gives way to a new day. This in-between time is what makes the experience so special: much is still quiet while the thermal spa gradually comes to life. A few minutes in the water, a glance outside – and suddenly the morning feels completely different.

This early moment is especially beautiful for anyone who likes to begin a wellness day in peace. Instead of moving straight from one activity to the next, there is time to drift, swim a few lengths and let the first rays of sunshine wash over you. The morning does not have to achieve anything. It is allowed to begin slowly.

The day begins differently again in AVITA Exklusiv. This hotel-only wellness area is reserved exclusively for hotel guests and offers a particularly peaceful setting during the early hours. In the 36°C infinity pool, indoor and outdoor areas merge and open up far-reaching views of the surroundings. Ergonomic water loungers invite you to stay in the warm water just a little longer.

Morning light falls through the large windows onto the water and changes its mood from minute to minute. Sometimes it lies calm and clear before you; sometimes it starts to sparkle in the first sunlight. Small amenities such as the tea and fruit bar and a regular towel-exchange service keep everything pleasantly uncomplicated. Especially in the morning, this area can feel like a world of its own.

Before the day begins.

AN EARLY START IN WARM THERMAL WATER.

TAKE AN EARLY DIP.

If you would like to be in the water first thing in the morning, AVITA offers a wonderfully relaxed start to the day. From Day Spa experiences to multi-day resort stays, there are various ways to enjoy a break in the warm thermal water. Current packages and seasonal offers can be found at avita.at.

Let go.
When warmth turns into calm.
LESS TO DO. MORE TO BE.

The art

Sometimes letting go is exactly this: warmth, calm and a few hours just for yourself. Lady's Spa and Premium Spa create space for a shared break, soothing treatments and a renewed sense of lightness.

Lady's Spa & Premium Spa

**WARMTH FOR YOU.
PAMPERING FOR LATER.**

Sometimes relaxation begins in exactly the moment when you no longer have to perform. A treatment creates space for that change: the door closes, everyday life stays outside and, for a while, attention turns solely to your own body. At AVITA Premium Spa, this moment is shaped with great calm and sensitivity. Massages, facial and body treatments and special rituals combine soothing touch with high-quality skincare products and an atmosphere in which you can focus completely on yourself. Treatments such as Shiatsu or Thai Yoga follow the same philosophy, bringing together movement, pressure and mindful touch. The idea is not to add yet another item to your day. Rather, the treatment itself can become the moment in which you pause, breathe deeply and simply do nothing for a while.

Thai Shi

For some, relaxation begins with the warmth of a sauna; for others with a treatment or a few quiet hours alone. It is precisely this freedom that defines the wellness world of AVITA Resort. You can retreat, recharge, spend time together or consciously let yourself be pampered. Lady's Spa and Premium Spa represent two different ways of making time out more personal: one as an exclusive area for women, the other as dedicated time for soothing treatments and individual spa moments. In between, there is plenty of room for everything that does not need to be planned – a break with a book, a conversation with your best friend or simply a few minutes letting your gaze drift. The result is not a fixed wellness programme, but a day that follows how you feel.

of letting go.

There are days when this is exactly what you want: a few hours with people you do not constantly have to entertain or make plans with. At Lady's Spa, this shared break has a setting of its own. The area is reserved exclusively for women and combines several saunas, a steam bath, an infrared lounge and peaceful relaxation areas. Warmth, calm and generous space create an atmosphere in which you can shape the day entirely according to how you feel.

Together with your best friend, your mother or a small group of friends, this is often where the most relaxed conversations and the loveliest memories happen. Between sauna sessions there is time to chat, read or simply do nothing. There does not need to be a special occasion or a tightly planned wellness day. Sometimes a little warmth, a quiet place and enough time for one another are all it takes to turn a few hours at the thermal spa into a restorative break. And perhaps that is the most beautiful luxury of all: not having to get anything done for a whole day, while still feeling that you have shared something special.

A day
for you
to let go.
A WINTER BREAK FOR TWO.
569

SIMPLY ARRIVE.

The day begins without hurry. A freshly brewed coffee, a quiet moment and the good feeling of finally having time for yourselves. Surrounded by warm materials, soft lighting and the relaxed atmosphere at AVITA, switching off often comes more easily than you might expect.

Relax & Deluxe Deck

OUR FAVOURITE COMBINATION FOR WINTER.

ENJOY THE WARMTH.

Every sauna session feels a little different. Sometimes the soothing heat takes centre stage, sometimes the quiet afterwards. Between gentle infusions, natural materials and generous relaxation zones, an atmosphere emerges in which body and mind can settle equally well.

Unwind side by side, let yourselves be pampered and forget about the time.

LET YOURSELVES BE PAMPERED TOGETHER.

A massage, a beauty treatment or time together in a spa suite – sometimes it does not take much to feel new energy. High-quality treatments, experienced hands and small rituals create moments that push everyday life far into the background for a while. Whether on your own or side by side, the only thing that matters is consciously taking time to switch off.

A WINTER BREAK FOR TWO

Current offers for shared wellness days and special moments for two can be found at avita.at.

Discover.
Take it easy.
SOUTHERN BURGENLAND
AT ITS OWN PACE.

Taste by

ON TWO WHEELS.

The most beautiful routes are often those that begin without a fixed destination. Around Bad Tatzmannsdorf, cycle paths lead through gentle vineyards, small villages and the wide-open landscape of Southern Burgenland. The aim here is not to clock up as many kilometres as possible. Instead, the region invites you to deliberately slow the pace. Around every bend, a new view over the vines, a shady place to pause or a cosy Buschenschank wine tavern may appear. Complimentary e-bikes are available to hotel guests, making it easy to explore the surroundings at a relaxed pace – along quiet paths, through the vineyards or simply wherever the next beautiful view awaits.

Take it easy.

Southern Burgenland is not a place to discover in passing. It is best explored along quiet paths, between vineyards, regional flavours and moments that are allowed to last a little longer.

A LITTLE BREAK ALONG THE WAY.

Sometimes you do not need a fixed destination at all. A quiet place among the vineyards, a bench overlooking the landscape or a sunny meadow by the roadside can be enough to savour the moment consciously. Add a lovingly packed picnic and it becomes a little break right in the middle of nature. Fresh regional specialities, a glass of Uhudler and plenty of time turn a short stop into a genuine holiday experience. These unplanned moments often stay in the memory the longest. They invite you to let your gaze wander, take a deep breath and absorb the calm of the landscape – without time pressure and far from the bustle of everyday life.

Bike

ENJOY THE REGION.

In Southern Burgenland, indulgence is simply part of everyday life. After a relaxed cycle tour, Buschenschank wine taverns and regional producers invite you to discover the culinary diversity of the region. A glass of Uhudler, fresh farmhouse bread, flavourful cheese or seasonal specialities tell the story of an area where craftsmanship and hospitality are still genuinely lived. It is this authenticity that shapes the character of the region. Often it takes very little to turn a small break into a memorable holiday moment.

BACK TO CALM.

As evening slowly begins outside, soothing warmth, relaxing thermal water and the calm of the spacious wellness areas are already waiting at AVITA Therme. Perhaps there is time for another round in the outdoor pool, a sauna session in the Uhudler Sauna or simply a quiet moment on one of the loungers. Nature, cuisine and wellness come together to round off the day beautifully and leave a lasting impression.

Golden days **long evenings!**

A TASTE OF AUTUMN
AND WINTER.

AUTUMN TO SAVOUR.

As the days grow shorter, the region tastes especially good. Chestnuts, a glass of Sturm and seasonal specialities belong to this time of year just as much as cosy evenings over good food. Around AVITA, autumn can be enjoyed with ease – regional, relaxed and with plenty of time to linger.

Regional & indulgent

FROM WARM PLATES TO COOL DRINKS.

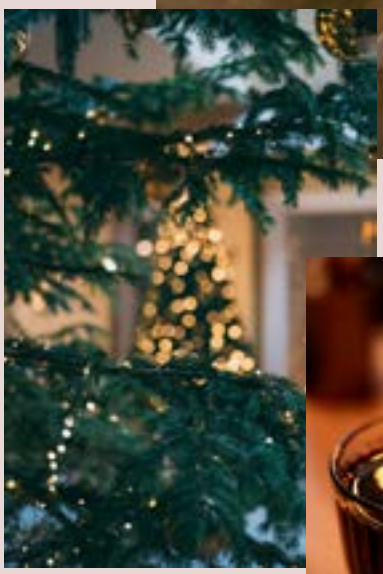

DISCOVER HISTORY.

Friedensburg Schlaining brings together history, culture and regional experiences. The medieval castle, changing exhibitions and seasonal event programme make it a rewarding destination for an excursion. Especially in autumn and winter, it is well worth a visit before returning to the warmth of the thermal spa.

Whether over dinner, at the Sera Bar or relaxing in your room – for many people, a glass of Uhudler is simply part of being in Southern Burgenland.

WHEN THE REGION LIGHTS UP.

During Advent, the area around Bad Tatzmannsdorf becomes especially atmospheric. Christmas markets, festively decorated villages and regional specialities invite you to set off on indulgent discovery tours. Afterwards, enjoy a mulled wine, breathe in the cold air and later return to the warmth of AVITA Resort – sometimes that is all a winter day needs.

IN THE MOOD FOR MORE REGIONAL FLAVOURS?

More culinary recommendations, regional excursion tips and seasonal highlights around AVITA can be found at avita.at.

Soak up the warmth for cold days.

WARMTH, CALM AND TIME FOR THE TWO OF YOU. RIGHT IN THE HEART OF WINTER.

RECHARGE WHEN WINTER KNOCKS.

When temperatures drop outside, there is all the more room for warmth indoors. Thermal water, sauna, relaxation and soothing treatments create space to recharge and leave everyday life behind for a few days. With our Sparkling Wellness Days package, this becomes a little winter break complete with Uhudler Frizzante and a Premium Spa voucher. All package details are available via the QR code.
